EXPERIENCE

AvidXchange **Charlotte, NC**
Product Manager November 2023 – February 2026
Drove product development for IMS (Invoice Management Service), the centralized invoice data platform and single source of truth for internal invoice data, powering integrations and supplier-facing workflows

- Led integration of AvidAscend invoices into IMS, increasing annual invoice ingestion by 1.7M (+4.5%) and broadening access to invoice data from a new vertical
- Increased Payment Accelerator adoption by 60K users in 2025 by introducing invoice submitter contact data into IMS event streams, enabling targeted supplier outreach
- Owned roadmap and backlog prioritization for a 6-person team, driving Top 5 company-wide sprint performance (CvC) in 2025
- Reduced infrastructure costs by $30K annually by containerizing services and migrating workloads from Azure to internal Container Orchestration Platform (COP)

SS&C Advent Software **Remote**
Product Manager October 2019 – November 2023
Led product execution and roadmap delivery for Modestspark, a client engagement portal for investment advisors and wealth managers, through UX improvements, automation enhancements, and bug fixes

- Defined product strategy and roadmap through collaboration with executive team, internal/external stakeholders, and pulse checks with resellers
- Increased client base by 14% in Q1 2021 by strengthening reseller relationships through prioritization of outstanding legacy development requests and establishing pulse checks
- Executed end-to-end database migration from IBM Compose (DBaaS) to MongoDB Atlas, reducing hosting costs by 85%
- Rebuilt 2-Factor Authentication workflow by designing customizable authentication duration feature

SS&C Advent Software **Jacksonville, FL**
Solutions Analyst February 2017 – October 2019
Guided 40% of clients as main point of contact from installation through implementation and beyond for Black Diamond Link project, an ETL data sync between internal systems

- Led weekly meeting for 5 teams involved in Black Diamond Link project to review stakeholder feedback, development backlog, and any outstanding project issues
- Volunteered to build and own APX/AXYS-to-Modestspark integration in addition to support escalations, implementation, and environment creation/deletion

SS&C Advent Software **Jacksonville, FL**
Client Support Specialist September 2014 – January 2017
Provided in-depth technical support for Moxy, Advent Software's trade order management application, closing over 1700 cases

- Maintained above 95% "Top Box" (rating of 9 or 10 out of 10) on all customer satisfaction surveys received
- Led in person Moxy data integration training for support teams in Jacksonville, Florida and Manila, Philippines
